Setting up business E-mail accounts and personal Email accounts with POP email is not difficult to do.

Do you work from home? Do you have a business email account? Do you have a personal email account? Would you like to keep your business and personal emails separate, but easily read and respond to both at the same time, and with the same software email client program?

Get the inside scoop of what is necessary to make your life easier when dealing with both personal e-mails and business e-mails, when using the same computer, and the same email client programs. Learn how you can keep them separate but monitor them together.

Read about how to go about setting your personal and business e-mail accounts up on your personal computer using POP for Microsoft Outlook, Outlook Express, Windows Mail, Thunderbird, Mozilla, Netscape, Eudora, Apple Mail, and others.
